Introduction

Founded in 1986, Agro Hardware Ind. (P) Ltd., is a leading manufacturer of plastic products, agriculture equipment and industrial hardware. With a clientele of over 250 companies, Agro Hardware Industries has proficiently developed resources to cater to a variety of needs, ranging from paint buckets to heavy duty moulds.

The company has always strived for and has been successful in delivering high quality products in the shortest time possible. With the basic belief that 'superior material, makes superior products', the company has developed a 'No compromise' strategy which has contributed greatly to its success.

At Agro Hardware Industries, customer needs are always placed before anything else and are served by manufacturing units, both of which are located in Amritsar, Punjab.
